

ARTIFICIAL INTELLIGENCE IN GASTROENTEROLOGY

NOVEMBER
20-21, 2024

AIGI2024
PROGRAM

JW MARRIOTT
LAS VEGAS
NEVADA

PRESENTED BY

AIGImed

CONFERENCE SPEAKER LINE-UP

#AIGI2024

Nasim Parsa, MD,
Satisfai Health

Brennan Spiegel, MD, MSHS
Cedars-Sinai

Winston Dunn, MD, FAASLD
University of Kansas Medical
Center

Harshit Khara, MD, FACC,
FASGE
Geisinger

Toufic Kachaamy, MD, AGAF,
FACC, FASGE
City of Hope, Phoenix

Joel Brill, MD
Predictive Health

Austin Chiang, MD, MPH
Medtronic

Sam Glassenberg
Level Ex

Michelle Pearlman, MD
ByteMD & Prime Institute

Noam Kalina
GistMD

Kumkum Patel, MD
Miri

Amy Kelly, LMFT
Miri

Sarah Robbins, MD, MSc,
FRCPC
Well Sunday Health Corp

Sushovan Guha, MD, PhD
Houston Regional
Gastroenterology Institute

Satwant Kumar, MBBS, PhD
NeuroReef Labs

Corey Ketchem, MD, MS
University of Pennsylvania

Klaus Gottlieb, MD, JD, MS,
MBA
Eli Lilly and Company

Sidhartha Sinha, MD
Stanford University

Fedaa Najdawi, MD, FCAP
PathAI

5 REASONS TO PARTICIPATE IN AIGI2024

#AIGI2024

- 1** **Gain insights** into pioneering AI-powered models and tools transforming the diagnosis, prognosis, and management of liver disease, inflammatory bowel disease, and Barrett's esophagus.
- 2** **Explore** how AI is revolutionizing the landscape of gastrointestinal cancer screening, potentially enhancing clinical outcomes and reducing mortality rates through earlier diagnosis.
- 3** **Discover** innovative AI-driven platforms designed to enhance patient engagement, education, and self-management strategies for gastrointestinal disorders, improving adherence and empowering patients.
- 4** **Understand** the potential for separate reimbursement for AI technologies in healthcare and the ethical, practical, and economic implications of widespread AI adoption in gastroenterology.
- 5** **Network and connect** with colleagues and experts in the field through dedicated networking events and roundtable discussions focused on the applications of AI in GI.

This conference is intended for healthcare professionals, researchers, and industry experts with an interest in the emerging applications of AI technologies in the field of gastroenterology and digestive diseases. The program will be relevant for:

- Gastroenterologists
- Researchers in AI, machine learning, and computer vision
- Healthcare data scientists and analysts
- Medical device and digital health companies
- Healthcare administrators and decision-makers
- Health technology investors and venture capitalists

INTENDED AUDIENCE

CONFERENCE AGENDA - WEDNESDAY NOVEMBER 20, 2024

#AIGI2024

7:00AM - 8:00AM	Continental breakfast and registration
8:00AM - 8:10AM	Opening remarks
8:10AM - 8:30AM	Exploring the AI Revolution in GI: A Retrospective and Forward Look <i>Nasim Parsa, MD, Satisfai Health</i>
8:30AM - 9:20AM	Virtually Better: Spatial Computing and AI in GI <i>Brennan Spiegel, MD, MSHS, Cedars-Sinai</i>
9:20AM - 10:20AM	Roundtable networking session
10:20AM - 10:40AM	Coffee break
10:40AM - 11:30AM	AI Revolution in Liver Disease Management: Unveiling ALCHAIN and ALADDIN's Predictive Power in AH and MASLD <i>Winston Dunn, MD, FAASLD, University of Kansas Medical Center</i>
11:30AM - 12:20PM	The role of AI in the management of Barrett's Esophagus <i>Harshit Khara, MD, FACG, FASGE, Geisinger Medical Center</i>
12:20PM - 1:20PM	Lunch
1:20PM - 2:10PM	Revolutionizing Cancer Detection: How AI is Transforming the Landscape of Multi-Cancer Early Diagnosis and Gastrointestinal Cancer Screening <i>Toufic Kachaamy, MD, AGAF, FACG, FASGE, City of Hope, Phoenix</i>
2:10PM - 3:00PM	Is there an opportunity for AI technology to obtain separate reimbursement? <i>Joel Brill, MD, Predictive Health</i> <i>Austin Chiang, MD, MPH, Medtronic</i>
3:00PM - 3:20PM	Coffee break
3:20PM - 4:10PM	GenAI Revelations from the Video Games Industry - Unleashed on Gastroenterology <i>Sam Glassenberg, Level Ex</i>
4:10PM - 6:00PM	AIGI2024 Happy Hour

CONFERENCE AGENDA - THURSDAY NOVEMBER 21, 2024

#AIGI2024

7:00AM - 8:00AM	Continental breakfast
8:00AM - 8:10AM	Opening remarks
8:10AM - 8:35AM	The AI-Powered Nutrition Companion Unlocking Your Gut Health Potential <i>Michelle Pearlman, MD, ByteMD & Prime Institute</i>
8:35AM - 9:00AM	Transforming Patient Engagement: Unveiling the Future of Digital Patient Education <i>Noam Kalina, GistMD</i>
9:00AM - 9:25AM	Gut Health Expertise in Your Pocket: Leveraging AI for Personalized Gastrointestinal Care and Nutrition Guidance <i>Kumkum Patel, MD, Miri</i> <i>Amy Kelly, LMFT, Miri</i>
9:25AM - 9:50AM	Bridging the Gap: AI-Enabled Self-Management Strategies for Gastrointestinal Disorders <i>Sarah Robbins, MD, MSc, FRCPC, Well Sunday Health Corp</i>
9:50AM - 10:10AM	Coffee break
10:10AM - 11:00AM	CareCortex: A Paradigm Shift in GI Healthcare Management Through Generative AI <i>Sushovan Guha, MD, PhD, Houston Regional Gastroenterology Institute</i> <i>Satwant Kumar, MBBS, PhD, NeuroReef Labs</i>
11:00AM - 11:50AM	Leveraging Natural Language Processing with Large Language Models to Advance Understanding of Gastrointestinal Diseases <i>Corey Ketchem, MD, MS, University of Pennsylvania</i>
11:50AM - 12:50PM	Lunch
12:50PM - 1:40PM	AI in Inflammatory Bowel Disease - Clinical Trials and Beyond <i>Klaus Gottlieb, MD, JD, MS, MBA, Eli Lilly and Company</i>
1:40PM - 2:30PM	Healthcare Transformation: Technology-Driven Approaches for Improving Provider Well-being <i>Sidhartha Sinha, MD, Stanford University School of Medicine</i>
2:30PM - 2:50PM	Coffee break
2:50PM - 3:40PM	Revolutionizing GI Pathology: The Power of AI <i>Fedaa Najdawi, MD, FCAP, PathAI</i>
3:40PM - 3:50PM	Closing remarks and raffles
